CREATED BY LAMBSKIN SPECIALTIES: MANUFACTURERS OF QUALITY PRODUCTS FOR THE JANSAN INDUSTRY

PUBLISHED BY LAMBSKIN SPECIALTIES

MAY 2013

Whats New...

This past year has been one of many firsts for Lambskin Specialties. We launched our Facebook Page for both Lambskin Specialties our sister site The Wonderful World of Sheepskin. We have our own blog now "The Dirt on Dusters". A great place to get product information, learn more about us, our history and our products, and share your experience in the JanSan industry. Our most current step into the fast moving world of the internet is our Youtube page. We are really excited and proud of our product demo videos that really give you great visual of the products in action, the purpose and results. Currently featuring the super fantastic Auto Drying Towel MFT-1021 and the correct use of Feather Dusters, we will continue to add to the product video collection. If you have any requests let us know!

And last but not least...

From our February 2013 Blog

"At the 2012 ISSA Show we introduced this important message; Nature at Work describes the perfect system of growth, regeneration, reuse and reapplication that we know as nature. Three words – nature at work; the message is simple and to the point. It describes the world around us, and captures the essence and value of the core of the Lambskin Specialties/DUST WAND line. Natural products work, and they are environmentally sustainable. For over 40 years, Lambskin Specialties has focused on products that are manufactured from natural materials – not because it was in style or because of a green doctrine, but because they really work. Both our wool dusters and our feather dusters are manufactured with raw materials that come from nature, not factories. "

A New Piece of The Puzzle!

This year we welcomed ROBERT GEORGE SALES to our sales force representing upstate New York. We look forward to a long prosperous future with them.

Welcome aboard!
